

Domiciliary assistance and
healthcare services for people
in their homes to help them
maintain their independence

Guild Healthcare

Established since 2010

Guild Healthcare is Care Quality Commission (CQC) registered and has been established for over 10 years providing domiciliary assistance and healthcare services for people in their homes with two offices based in Acle and North Walsham, Norfolk.

We are passionate about delivering high quality, individual care and support to promote independence.

We are not small, but not so big that our clients will be treated as just another number and faceless.

Our **care** team

Our local, professional and reliable team of approximately 70 home care assistants and support workers attend a thorough and continuous training programme. This enables Guild Healthcare

to deliver the highest achievable standard of care in our local community.

Because Guild Healthcare creates a personalised care plan for each individual client, by continually listening, observing and learning about what is important to them, our team can adapt the care plan to completely fulfil changing aspirations and needs, 24/7 if required, both domestically and medically.

Services we offer to our clients:

Personal Care

Whether it's getting washed and dressed or help to look your best, we're here to make the little things easier to manage.

Companionship

We're happy to spend time with you chewing the fat, sipping tea, and catching up on the news or whatever else you'd like to do.

Medication

We can ensure you're taking the right medication at the right time, so you don't have to worry about keeping track.

Outings

Get out and about with one of our team to the seaside, the city, or just to the local pub.

Appointments

No need to arrange private transport to your appointments.

Whether it's to the doctor, dentist or hairdresser, we can accompany you while you're there too if you like.

Domestic Assistance

We can take care of all your household chores, including washing up, laundry, bed changing, vacuuming, general maintenance, odd jobs and gardening.

Meal Preparation

From food to fluids, we can prepare all your meals and snacks, just how you like them.

Help with Pets

If you have a furry companion who needs walking, feeding, grooming, or a trip to the vets, we're on hand to help out.

Dementia Care

We provide outstanding dementia care, helping you to maintain your independence as much as possible and always putting your needs first.

End of Life Care

Our sensitive and supportive approach means we're by your side to make your last moments with us as comfortable as possible.

Sit Visits

If your main carer is away on holiday or taking time off for illness, we can keep you company in their absence for as long as you need.

Shopping

If getting out to the shops is a struggle, we can take you there, pick up what you need, or arrange a regular grocery delivery for you.
